U.S. AIR FORCE

Overview

- **Air Force Optimization Program is Evolving**
- **Role of Contractors**
- **Role of Air Force**

Optimization Big Picture

U.S. AIR FORCE

- **Site Focus – individual, technical**
- **Installation Focus – site relationships, technical**
- **Program Focus – coordinated goals, prioritization**

U.S. AIR FORCE

Contractor's Role

- **PBR emphasizes contractor's responsibility for making appropriate decisions**
 - **Contractors implement RPO and LTM-O**
 - **Optimization for site closure**
 - **May result in increased frequency of sampling**
 - **Additional sampling points may be needed for verification**

U.S. AIR FORCE

Air Force Role

■ Pre-PBR Contribution

- Provide programmatic evaluation to support fence-to-fence PBRs
- Highlight potential performance metrics

■ During PBR – Surveillance

- Support execution of the Surveillance Plan
- Evaluate progress against performance metrics and milestones

■ Post PBR – Evaluation and preparation for next PBR

- Insight into progress made towards meeting remediation goals
- Identification of next set of goals
